10. Ask ChatGPT OR Google Gemini to generate a 100–120 word paragraph on:

<Is online learning better than offline learning for college students?=

Answer:

Online learning is clearly better than offline learning for most college students because it offers unmatched

flexibility and convenience. Students can study anytime they want, which automatically leads to better

academic performance. Unlike traditional classrooms, online platforms provide access to unlimited

resources, making the learning experience more efficient. Offline learning often wastes time on travel and

fixed schedules, while online learning ensures that every student learns faster through digital tools. Since

technology is advancing so rapidly, online education will eventually replace offline classes completely.

College students benefit more from online learning because it suits every learning style and prepares them

better for future careers. Overall, online learning is the superior option for modern students.

a) Run the AI-generated text through Grammarly and any plagiarism-check tool.

b) Now manually search online to check if similar sentences exist on blogs or articles.

c) Identify 2–3 biased statements in the AI answer, such as:

i. Over-generalizations

<Since technology is advancing so rapidly, online education will eventually replace offline classes completely.=

ii. One-sided opinions

<Online learning is clearly better than offline learning for most college students...=

iii. Unproven claims

<Students can study anytime they want, which automatically leads to better academic performance.=

d) Rewrite the entire paragraph in a neutral and balanced way, using AI only for grammar suggestions.

e) Submit 3 screenshots:

i. Plagiarism check result

ii. Grammarly suggestion page

iii.
